

## MLX91208/9 Current Sensor

# Melexis

- End-Of-Line Programmable Contactless Current Sensor
- Enhanced Thermal and Lifetime Stability
- Programmable Linear Transfer Characteristic
- High Speed Measurement from DC to 250kHz
- Fast response Time < 3μs: Perfect for Short Circuit Detection
- 5V Supply with Selectable Analog Ratiometric Output
- **MLX91208** (SO-8) with IMC-Hall® Technology for Planar Sensing in Busbar, Clip-On and Conductor Applications
- **MLX91209** (SIP) for Airgap Sensing in Ferromagnetic Core
